Technical Skills

- **Oracle:** APEX (Interactive Grids/Reports, Approval Workflows, Authorization Schemes, Dynamic Actions), Oracle Integration Cloud (OIC), Oracle ERP (Financials, Supply Chain), Oracle Fusion Cloud ERP, OAF, ORDS, Oracle Analytics Cloud, OCI
- **Database:** Oracle SQL, PL/SQL, Performance Tuning, Data Modeling, Data Migration, VPD, PostgreSQL, MySQL, SQL Server
- **Languages & Web:** Python, PHP (CodeIgniter), JavaScript (jQuery, Three.js), HTML, CSS, Bash
- **Integrations:** REST/SOAP APIs, JSON, OAuth2, Salesforce, Microsoft Dynamics CRM
- **Reporting:** Power BI, Oracle BI, Oracle Reports, JasperReports
- **Tools & Methods:** Git, Postman, Jira, Confluence, Automation Anywhere (RPA), Agile/Scrum
- **AI:** APEX Generative AI & AI Assistant, Oracle Database 26ai (AI Vector Search, Select AI), OCI Generative AI, LLM APIs, RAG

Professional Experience

Technical Lead
A.S. Watson | Delhi, India
October 2026 – Current

- Leading development and support of an enterprise **Oracle APEX** application, working across **PL/SQL**, **JavaScript**, **jQuery** and **Three.js**.

Software Developer
GAL | Abu Dhabi, UAE
June 2026 – October 2026

- Built and deployed an on-premise **Oracle APEX 24.2** application end to end, from requirements and data modelling to go-live, used by about **50 people**.
- Wrote the **PL/SQL** business rules, audit trail and data-level access control, and integrated the app with **Oracle E-Business Suite** and **Oracle Workflow** for approvals and notifications.

Software Developer
Medical Guardian | Philadelphia, PA, USA
February 2023 – February 2026

- Led a team of **4 developers** on the APEX and integration work: ran sprint planning and code reviews, and was the main technical contact for the business.
- Delivered **12 Oracle APEX applications** (reports, forms, dashboards, approval workflows) used by **230+ people** across ERP and CRM teams.
- Maintained and extended the company's **PHP (CodeIgniter)** web applications; refactoring and stricter code reviews brought production incidents down **27%**.
- For Medical Guardian's **acquisition of MedScope**, built scheduled jobs and a **PL/SQL ETL** layer moving every MedScope order from **Dynamics CRM** to fulfilment and **Salesforce**.

- Added duplicate protection, **SKU mapping**, error reprocessing and **reconciliation checks**, then **migrated all MedScope records** onto Medical Guardian's platform; afterwards designed an **Oracle Integration Cloud (OIC)** re-architecture of the bridge.
- Built **APEX and Power BI dashboards** for leadership, replacing a weekly report that used to be put together by hand.

Software Developer
Kellogg's Tolaram (Tolaram Group) | Lagos, Nigeria
October 2018 – August 2022

- Supported and extended **Oracle E-Business Suite** Finance, Supply Chain and Inventory across the Tolaram group's companies in Nigeria.
- Built **Oracle APEX** and Python tools to fill gaps in standard ERP, including a fleet-parts approval app for BHN Logistics approved from **Slack** or email.
- Built **Automation Anywhere** bots saving **130+ hours** of manual work a month; one reconciles bank statements against the EBS ledger in **5-10 minutes** instead of a month.
- Enhanced the group-wide **IT help desk** in Oracle APEX, used by finance, logistics, manufacturing, marketing, HR and other teams: SLA rules, notifications and dashboards.
- Tuned packages, triggers and procedures to speed up a critical month-end batch.

Junior Software Developer
Shreeji Craft | Gujarat, India
August 2017 – September 2018

- Wrote **PL/SQL procedures, triggers, and packages** to automate order processing and inventory updates, cutting order processing time by **28%**.
- Built internal **SQL Server** applications for day-to-day ERP tasks.
- Created **22 Oracle Reports** used by operations and management.

Education

Master of Science in Computer Science
Harrisburg University of Science & Technology, PA
August 2022 – August 2024 | GPA: 3.75

Bachelor of Computer Science and Engineering
Babaria Institute of Technology, Vadodara, Gujarat, India
Gujarat Technological University | June 2013 – May 2017 | CGPA: 8.69

Certifications

Automation Anywhere Certified Advanced RPA Professional (V11.0)
Automation Anywhere | Issued Mar 2020
